MDNR PROPOSES RELEASE OF THE FORMER SKF INDUSTRIES,
ST. LOUIS FACILITY'S INTERIM STATUS AS A
HAZARDOUS WASTE STORAGE FACILITY

The Missouri Department of Natural Resources (MDNR) is proposing the release of the former SKF Industries' interim status as a hazardous waste storage facility and closure financial assurance obligations based on MDNR's determination that no further corrective action is required under the Missouri Hazardous Waste Management Law and Regulations.

SKF Industries, formerly located at 2320 Marconi Avenue, St. Louis, Missouri, operated from 1918 to 1986. Historically, SKF manufactured automobile piston rings and other engine parts and performed electroplating and degreasing operations. The former SKF, St. Louis facility was regulated as a hazardous waste storage facility by virtue of filing a RCRA Part A permit application for storage of hazardous waste.

SKF has informally closed its hazardous waste storage area, demolished several manufacturing buildings and decommissioned associated manufacturing equipment. Portions of the property are currently occupied by residential townhouses and several of the former SKF buildings are in use by other commercial businesses.

The proposed release of SKF's interim status and closure financial assurance obligations and determination of no further corrective action are based on the corrective action administrative record for the SKF, St. Louis facility. The corrective action administrative record includes the April 13, 1992, EPA's Environmental Priorities Initiative/Preliminary Assessment (EPI/PA) Report as supplemented by MDNR's RCRA Facility Assessment (RFA) Report addendum, dated November 15, 1996.

Citizens can review the information concerning MDNR's regulatory determinations, including EPA's EPI/PA Report and MDNR's RFA Report addendum, at the following location:

St. Louis Public Library
Kingshighway Branch
4641 Shenandoah Avenue
St. Louis, Missouri
Phone: (314) 771-5450
Hours: Monday, 9:00 a.m. to 6:00 p.m.
Tuesday through Thursday, 12:00 noon to 7:00 p.m.
Friday, 11:00 a.m. to 6:00 p.m.
Saturday, 9:00 a.m. to 6:00 p.m.

or, by appointment at the following offices:

Missouri Department of Natural Resources
St. Louis Regional Office
10805 Sunset Office Drive
St. Louis, Missouri
(314) 301-7100

Missouri Department of Natural Resources
Hazardous Waste Program
1738 East Elm Street (lower level)
Jefferson City, Missouri
(573) 522-3345

Citizens are invited to review and comment on the proposed release of the former SKF, St. Louis facility's interim status during the public comment period, which will end on March 16, 2000. Please send comments to Fuad Marmash, Missouri Department of Natural Resources, Hazardous Waste Program, P.O. Box 176, Jefferson City, MO 65102.

For more information, contact Fuad Marmash, MDNR's Hazardous Waste Program, at (573) 751-3553.

RE: Release of the Former SKF Industries, St. Louis Facility's Interim Status as a
Hazardous Waste Storage Facility

Dear Mr. Sedey:

Enclosed is a copy of the Corrective Action administrative record for the former SKF, Industries, St. Louis facility which includes a legal notice announcing the Missouri Department of Natural Resource's (MDNR) proposed release of the former SKF, St. Louis facility's interim status, a copy of U.S. Environmental Protection Agency's Environmental Priorities Initiative/Preliminary Assessment Report and MDNR's Resource Conservation and Recovery Act Facility Assessment report addendum regarding the above-referenced facility.

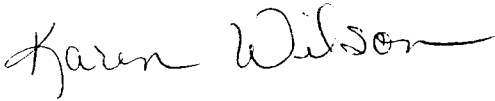

MDNR is requesting that these documents be made available for public viewing at your library. Please allow the public to review the information, make copies, etc.; however, this information should not be removed from the library.

Mr. Joe Sedey
